The New York African Studies Association presents...

### <u>Letter from the President</u>

Welcome to the 43rd annual conference of the New York African Studies Association. Once again, NYASA not only welcomes participants from the U.S., Europe, and Africa but also has the honor of hosting a conference in a state other than New York. NYASA's philosophy is not merely trans-state but transnational in its promotion of a globally-conceived Africana studies dedicated to creating a more just, sustainable, and convivial world. Your presence at this year's conference at Seton Hall University works toward that better world, and as our "2018 world" pursues more walls from which neo-fascist "strongmen" spew hate and division, it is important that we pause and see ourselves and this conference as a "best hope" for the future. We have come together to engage in fact-based conversations and thoughtful critique in pursuit of understanding and appreciation, and in keeping with these goals, the theme of this year's conference is "Global Africa: Human Migration, the African Diaspora, and the Future."

I along with the entire Executive Board heartily thank Seton Hall University for hosting this year's gathering. It is not merely for etiquette's sake that we give thanks for the resources that have gone into this conference; it is an act of solidarity. It is easy to profess ideals on a website, but it takes commitment to devote time and money to hosting a conference. Today and into the foreseeable future, conferences such as this will be more and more about creating the synergy needed to heal humanity and the planet—our only family, and our only home.

Helping NYASA and all participants in pursuit of those goals, I would like to thank the many students, administrative assistants, technicians, physical plant employees, food service and print shop workers, administrators, professors, and everyone else who has contributed to this conference. Specifically, I would like to thank Seton Hall Provost Karen Boroff, Dean of the School of Diplomacy and International Relations Andrea Bartoli, Dean of the College of Arts and Sciences Peter Shoemaker, and Chair of Political Science and Public Affairs Robert Pallitto. I would also like to thank Assefaw Bariagaber of the School of Diplomacy and International Relations. Vice President Cheikh Ndiaye of Union College, and all the members of the Local Organizing Committee.

Finally and loudly, I would like to thank longtime NYASA member and past president Kwame Akonor of the Department of Political Science and Public Affairs for his tireless work and perennial good cheer in devoting the last year to making this conference a reality. Thank you, Kwame.

Congratulations to our Distinguished Africanist Award recipient José Arturo Saavedra Casco of El Colegio de México, A.C.; Ali A. Mazrui Outstanding Publication/Book and Educational Activities Award recipient Ibipo Johnston-Anumonwo; Book Award recipients John K. Marah for Pan-African Education: A Bekeh U. Ukelina for The Second Colonial Occupation as well as this year's NYASA Distinguished Teacher Award recipient and the Thomas and Corinne Nyquist Distinguished Service Award recipient.

Wishing you a fruitful conference, and with hopes of seeing you at future NYASA conferences.

Kevin Hickey

### Mr. Lawrence Hamm

### Chairman People's Organization For Progress

There is not enough space in this program to explain the great contributions that Lawrence Hamm and his grassroots organization, People's Organization For Progress have made in Essex County, New Jersey, and beyond. Mr. Hamm's civil rights advocacy and humanitarian work goes back four decades. The best way that people now describe Larry Hamm to emphasize his great contributions to the most vulnerable people among us is that he is the "Dr. King of New Jersey". That says it all. Larry Hamm earned his bachelor's degree from Princeton University in 1978. For more information on Larry's great work, please see this link to his grassroots organization: http://njpop.org/wordpress

### Dr. Ibipo Johnston-Anumonwo

Ibipo started working in the Geography Department at SUNY Cortland in 1988 as an Assistant Professor. Ibipo's teaching and research competencies are human geography and global development, urban social geography, diversity and gender studies, and Africa. She was promoted to associate professor in 1994, and became a full professor in 2002. During 2002 and 2003, she served as interim co-chair of the Geography Department and as acting chair. She was a past Co-Coordinator of the Women's Studies Program. Her scholarly work integrates gender and ethnicity into geographic research and curriculum. As a member of the executive board of the New York African Studies Association she served as President and co-edited two books on African studies.

In addition to co-authoring and co-editing five books, among her publications are numerous peer-reviewed journal articles, book chapters and book reviews. Her latest work about engaging feminism and development is a co-edited book titled Global Perspectives on Gender and Space (Routledge 2014). Apart from her extensively cited research publications women's commuting and the spatial mismatch in the work trips of African American women, Africa is the geographic focus of her teaching and research in gender and development. Her definitive chapter on "Geography, Gender and Development" in the widely-read Aryeetey-Attoh's Geography of Africa textbook is one of her most influential contributions in light of student's and instructors' acclaim of the piece, now in its 3rd edition.
